In regard to claim 1, the prior art of record fail to show the legged mobile robot being able to be operated to a specific motion posture in which the robot is in contact with an external at a first predetermined portion or portions between the distal portion or portions of one or more specific link mechanisms among the plurality of link mechanisms and the base body, wherein at least one or more of the plurality of joints are provided between the first predetermined portion or portions and the distal portion or portions of the link mechanism.

In regard to claim 6, the prior art of record fail to show a predetermined portion located between the base body and the distal portion and wherein when the mobile robot is in a specific posture position the predetermined portion of at least one of the plurality of link mechanisms contacts the external surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Response to Arguments**

3. Applicant's arguments, see Remarks, filed 11/21/2008, with respect to claims 1-5 have been fully considered and are persuasive. The rejection of claims 1-5 has been

withdrawn based on applicants' amendments as well as the arguments set forth in the remarks.
